Cover/Sunshade

Controlling tablet

- 8" TFT HD screen, 8× electronic zoom
- Touch buttons
- Data sharing with smartphones via WIFI
- Bluetooth keyboard for text input

Φ5.2 mm/40 m push-rod, meter counter

Full HD camera head

Description

ELEGAM HD is part of the last series of FORBEST cameras. It offers optimal inspection of pipelines from DN40 to DN125 thanks to a Full HD camera head of Ø23 mm and its 8" screen with 8× electronic zoom.

You can record videos/photos on USB sticks or SD cards via the removable and lightweight tablet. And a free application can be downloaded to view images in real-time on your smartphone and save them there.

Its compact and lightweight structure makes it a perfect partner for inspections and to be carried around easily.
